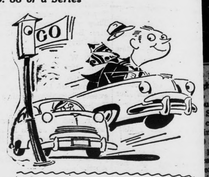
SAFETY Is Everybody's Business . . . .

But More Practically It's Your Business

No. 88 of a Series



TAKE THIS FOUR-POINT PLEDGE FOR SCHOOL-TIME TRAFFIC SAFETY:

Insure yourself — and others — against tragedy!

POINT ONE: "I WILL DRIVE SLOWLY:"

"When in the vicinity of schools, I will keep *within the speed limit*—or much less than that. I will be always ready to STOP in a flash—for that youngster who may dart from behind a parked car, or the unpredictable "kid" on his bicycle. I will execute *all* traffic hand signals."

POINT TWO: "I WILL OBSERVE ALL SIGNS:"

"I will heed signs that warn me where to-and from school traffic is heaviest. Before coming to a cross-walk, or safety zone—supervised or not—I will give the *proper hand signal*, and if children are about to cross, come to a *full* STOP."

POINT THREE: "I WILL NOTE THE TIME OF DAY:" . . . . . .

"I will be doubly alert during the hours when school children are on the streets. Recesses, lunch hours, before and after school! These peak periods will find me *ever-watchful — and prepared*. In bad weather, *I Will guard* against traffic unforseeables'."

POINT FOUR: "I WILL KEEP MY CAR TIP-TOP:"

"No matter how willing I am, I'll always remember my car *coud be weak* — just at the crucial moment. I will not handle the wheel unless I am *certian* that my car is in first-rate mechanical shape. I will have it *checked* and *inspected, regularly,* to be sure

Until that peaceful day, when Everyone makes SAFE DRIVING his no. 1 civilian objective — make it an INDIVIDUAL MATTER WITH YOU. Your good example might set some reckless driver on the right road to safety! Show others the way. Be a leader at the wheel! Remember: "It takes years to raise a child— *but less than a second to kill one.*"

THERE'S PRECIOUS CARGO IN EACH SCHOOL BUS

Loading, unloading, or on the move, school buses are "caution signs"

HEED THOSE JUNIOR COPS AT THE CROSSINGS

They are carefully selected and trained—to *know their business*

REMEMBER: A Stop in Time Can Save MINE

Be a Safe Driver of a Safe Car!!

Lighting For TV

ighting will solve a lot ems, says Miss Ruth ose Furnishing Special- She has these tips for ntain of eye strain ing programs: The TV times brighter than picture screen so that an enjoy shows in the erefore, you need light dcters clearly at night- is not done the picture becomes too bright and the glare causes eye strain.

The light should be balanced. Be sure to turn on enough table and floor lights to get equal shading over the entire room. Lamp shades that light cannot shine through are preferred. Avoid placing lamps so their reflections appear on the screen. Sit far enough away from the set so that lines blend together and you get a clear picture. From 8 to 12 feet is the most comfortable viewing distance.

Time Saver Tips for Dishwashers

1. Place all dishwashing equipment within easy reach of the sink.
2. Put leftovers in refrigerator dishes already placed within easy reach.
3. Srape dishes clean with a rubber scraper into sink strainer. Use paper towels for grease and fat. Keep paper towels and waxed paper handy.
4. Organize and stack dishes. Rinse well if you do not intend to wash at once.
5. To avoid discoloring aluminum pans, remove food and put to soak at once.
6. Soak silverware in bowl or pitcher while stacking dishes.
7. Wash crystal first, then silver and finally pots and pans.
8. Rinse with scalding hot water, the hotter the better for quick, sanitary drying.

Good Floor Finish

Research specialists say for the hardest, most lustrous and most protective finish on floors (particularly in traffic areas, entrances and hallways) use two or three thin coats of paste wax. Apply each coat of wax separately, let dry, polish, then repeat the process. To keep floors in good condition polish frequently between waxings to restore luster and remove scuff marks from the floor. Frequent buffings sometimes do as much good as a new coat of wax. If traffic areas are taken care of, floors usually need entire rewaxing only two or three times a year.

Hints For Homemakers

If water is allowed to stand and evaporate on any waxed floor, it will spot. Wipe up spilled liquids as quickly as possible.

It's dangerous to hang an electric cord over a nail. If it must be hung up, make a loop around it with a rubber fruit jar ring and hook the ring on the nail.

Vegetables cooked in a large amount of water for a long time lose much of their food value, natural flavor, color and texture.

If you are caught in the rain wearing your best wool coat, a thorough brushing when the garment is dry will restore that bright, new look.

To make a drawer slide more smoothly and quietly, rub both the sides and the under-surface with soap.

DOUBLE HAUL

Milwaukee.- Responding to a call, an ambulance driver went to pick up Michael Wilson, who had fallen from a horse and broken his left leg. As soon as he was placed in the ambulance, Raymond J. Surprise stumbled into Wilson's farmyard. He had fallen from a horse and suffered a badly sprained shoulder. Both men were placed in the ambulance and taken to the hospital.

The Army and the National Guard have settled their dispute over training policies, agreeing on a six-month delay in carrying out the new requirement for six-months' active duty for Guard recruits.

SPRING FLOWERS STARTING TO BLOOM ON SKYLINE DRIVE

By George Kingsbury

Skyline Drive, Va.- The Spring parade of flowers is about to get underway here in this Virginia wonderland.

Already in the lower regions many spring flowers are popping out in a wide assortment of colors. The first tiny tree buds are beginning to break through.

Soon all of Shenandoah Valley will be green again as trees, grass and foliage respond to nature's eternal cycle in this season of new life.

Making ready for what is expected to be one of the most beautiful seasons in the history of the drive, rangers of the Shenandoah National Park are installing new directional signs and making sure that all the hundred of miles of hiking trials are clear.

The people who operate the hotel and restaurant facilities in the park are busy these days, too. As this is Jamestown Festival year, they are expecting a record number of visitors to Skyland, Big Meadows Lodge and the other stations along the drive.

First to open will be popular Big Meadows Lodge on Friday, April 12. With a terrace overlooking the valley. The Lodge offers accomodations for 130 guests.

Skyland, with hotel cottages for 250 guests, will be open on May 24.

Other opening dates of facilities along the drive include:

Panorama Crossroads, with dining room, gift shop and service station, April 5; Big Meadows Wayside, with grill room, gift shop and service station, April 19; Swift Run Crossroads, dining room and gift shop, April 12; Elkwallow Wayside, May 28.

The three main entrance stations to the park were opened on Saturday, March 16.

An old-timer is a fellow who can remember having to go to the grocery with his wife because she couldn't carry home $5 worth of groceries. -The Treynor, Iowa, Record.

KNOW THE WEATHER

By E. H. Sims

What is Ballot's law? Did the Dutch scientist discover a secret of the winds? Modern study indicates he did.

In 1860 Buys Ballot outlined his basic principle: "Stand with your back to the wind, and pressure is lower on your left hand than on your right. . . . . ."

Science has proved it is usually true. Low pressure (bad weather) systems circulate counter clockwise. Therefore, with your back to the wind, in a low pressure system, your left hand would point to the center of the disturbance.

In a high pressure system your left hand would point away from the center of the high pressure area, away from the best weather!

So Ballot's law is important. Veteran pilots know steady right "drift" on long cross - country flights is an omnious sign. That is because it means wind is from the left. If one put his back to it, his left hand would point in the direction he's flying — toward lowering pressure, bad weather!

GOLDEN GLEAMS

The worm was punished for early rising. —J. G. Saxer.

He who has never seen a river mistook the first he saw for the sea. —Michel de Montaigne.

The desire for safety stands against every great and noble enterprise. —Tacitus.

Sarcasm (is) the language of the devil. —Thomas Carlyle.

Every step of progress the world has made has been from scaffold to scaffold and from stake to stake. —Wendell Phillips.

Psychology

Psychology is where the astute police give out the robbery loss at double the actual figure, thus stirring up suspicion among the assistant thugs that they were short-changed. -Detriot News.
